

**STUDENT DRUG POLICY- REVISED**

The Wellpinit School Board recognizes the value of preventing the use of drugs amongst our students who participate in extra-curricular activities. The board requests that all of these students participate in a voluntary drug testing program under the following conditions;

- All students will deal with the consequences of drug and alcohol use as outlined in the Wellpinit School District Discipline Rubric.
- Students who choose to participate in the voluntary drug testing program; will also agree to participate in the random drug-testing program. The student and parent/guardian will sign a release granting the district the right to drug test. If the student chooses not to take a random test as agreed upon; that test will be considered a positive.
- Students who choose not to participate in the voluntary drug testing will be protected under the laws of confidentiality; to prevent the potential of intimidation and/or harassment for making such a choice.

By signing this form for the Wellpinit School District, I acknowledge that I have read, and understood the information provided.

- We consent to participate in the voluntary drug testing program.
- We do NOT consent to being voluntarily drug tested.
