4 Other Wellpinit School District Policies Concerning the Internet

If a parent or guardian does not want their child to access the Internet, the District will provide a mechanism whereby the student will not access the Internet. The parent will also be informed of the ways in this will limit the educational opportunities for the student.

The District reserves the right to take pictures, video or audio of students engaged in school activities – including all sports and field trips – and of student work as assigned by a teacher, and to use those pictures and videos in school related activities and publications, including yearbooks, newsletters and web-sites.

- Any third-party use, as in commercial magazines, will need to get separate authorization.
- Students on the web site will be identified with first names only – no full last names will be used.

If a parent objects to any display of student information, the District will provide a mechanism whereby the student in question will have no identifiable presence on the District's Web Site

Filtering software or services has been installed and used on all computers with access to the Internet, which will block or filter access to visual depictions that are obscene, child pornography, or harmful to minors. When adults are using the Internet, materials which are obscene and child pornography must still be filtered or blocked. Exceptions may be made for staff if the filtering software will not permit them access to sites that they need to access as part of their designated work.

Educational staff will, as part of their duties, monitor minors' use of the Internet in school, and will take reasonable measures to prevent access by minors to inappropriate material on the Internet and World Wide Web, and restrict their access to materials harmful to minors.
